

Hatteras Shipwreck Symposium 2013

June 8-16, 2013

The Hatteras Shipwreck Symposium is a **FREE** premier event to highlight shipwreck diving in the Atlantic coastal region and discoveries made over the years. Some discoveries are identifications of long lost ships, some are photographs and videos capturing shipwrecks before they are lost to time and tide, and some are recoveries of ordinary objects that were lost in extraordinary circumstances.

FREE Exhibit area open daily at Hatteras Landing Marina featuring shipwreck artifacts, underwater photos, and videos from the *E.M. Clark*, *Eureka*, *Bow Mariner*, and other wrecks.

FREE mid-day presentations at 12 noon, and evening presentations at 7:30 pm by avid scuba divers from all across the mid-Atlantic region.
